TRIOSIGN

BRILLIANT

THE PREMIUM FOLDING SIGN WITH
ADDITIONAL FILM LAMINATE

ADVANTAGES FROM ALL SIDES

Space-saving storage and ready to use in no time at all – folding signs are ideal for quick, high-visibility warnings about hazards. TrioSign Brilliant, Nissen's new, premium folding sign, is a solution that offers numerous advantages in addition to higher visibility.

The new **Nissen premium folding sign TrioSign Brilliant** stands out mainly due to its advanced foil technology. Using a special process, we print the familiar R1 or R2 foils with the individual symbols and texts and then coat the sign with an additional foil laminate.

The advantage:

The new TrioSign Brilliant folding signs have higher reflection values, increased colour brilliance and all-around improved durability. In addition, the new generation has all the benefits of the previous model: well-designed and robust construction, custom design options and helpful accessories. Choose the new premium folding sign Nissen TrioSign Brilliant and take advantage of the perfect solution for everyday use.

Advantages at a glance

- Higher reflection values in the printed areas
- Noticeably better colour brilliance
- Protection against abrasion, acid and UV rays
- Longer durability
- Lotus effect prevents dirt build-up

UNLIMITED, CUSTOM VARIETY

1 All sizes

Nissen TrioSign come in the four internationally common sizes 60, 70, 90, and 110 cm (side length).

2 All sides

Each side of your TrioSign folding sign can be designed individually. Make your selection from the signs of different country catalogues. You can also select individual signs.

COM-MADE

For street traffic or on site, our folding signs suit almost every application and are custom manufactured to meet your requirements. TrioSign folding signs designed by Nissen are manufactured in a custom-made fashion to meet your requirements. Choose between different sizes, foils, and signs from the various country catalogues.

3 All languages

Label your folding sign from a selection of standardized text elements or with your customized texts. Changeable text Velcro strips increase the scope of application.

Sample texts:

4 All foils

TrioSign folding signs are available with white and yellow foil and in three different reflection classes, respectively: daytime visibility (R0), highly reflective (R1) and very highly reflective (R2). All foils are waterproof and weatherproof.

A SIGN OF QUALITY

All design elements of our TrioSign folding signs originate from our in-house production department. Benefit from certified quality.

From the stable stands made of galvanised profile steel, to the covering made of resistant PVC plastic fibre, to the individual accessories, we produce and install all components of the TrioSign Brilliant folding signs ourselves. We also apply and glue the additional film laminate using a process that we developed.

Easy setup

Well-thought-out mechanics: One short movement of the wrist and the TrioSign Brilliant folding signs are ready for deployment.

Highest stability

A clear edge: The support legs of the TrioSign Brilliant folding signs are neither rounded off nor chamfered and, just like spikes, provide for secure positioning.

Robust design

High resilience: Nissen TrioSign Brilliant folding signs are fully manufactured from steel. Advantage: higher stability and weather resistant.

Quick replacement

More flexibility: Thanks to convenient quick-releases, the coverings of the TrioSign Brilliant folding signs can be replaced in no time.

Easy handling

Securely positioned: A robust spring mechanism prevents the TrioSign Brilliant folding signs from collapsing unintentionally.

High compatibility

Without an adapter: The Nissen Nitra, Nissen Star Flash and Nissen City Flash warning lights can be fitted without the use of a support.

THE IDEAL SUPPLEMENT FOR EVERY APPLICATION

MENT ATION

The high level of customization for your Nissen TrioSign Brilliant folding sign is reflected by the abundant range of accessories. From the Velcro strip for changeable text elements to the attachable extension tube for warning lights.

Central weights providing for a higher stability

- 1,500 g for TrioSign Brilliant 60 and 70 cm
- 1,800 g for TrioSign Brilliant 90 cm
- 2,500 g for TrioSign Brilliant 110 cm

Velcro strips for a greater variety

- Velcro strips for TrioSign Brilliant with a stitched-on Velcro tape
- Velcro strips for TrioSign Brilliant without a stitched-on Velcro tape
